## **Physician View Station**

*Student studies are automatically routed to Dr. Chen for review, annotations, and storage.*

Add the convenience of a Physician Viewing Station (PVS) to your facility.

With the PVS you can review patient images from any DICOM modality and, this station will connect you directly with Dr. Chen's system.

You can send him your studies for review and comment. All images are encrypted for HIPAA with our exclusive 168bit security code.

This PVS arrives ready to plug-in and use. System is pre-configured to link to Dr. Chen's office system.

Use the order form on the back side of this flyer to complete your purchase and take advantage of our special pricing offer.

## PVS-TS-20

**\$4,200.00**

This is a Hardware & software solution. This "all-in-one" PC provides a high resolution 20" wide screen display for image review. Features our 'touch-screen' display making it quick and easy to review images.

*Intuitive, instinctive tools / feature display. Supports DICOM 3.0 images from CT, MR, CR, US, SC, XA, NM, DR, Digitizer and others. Sortable Worklist: by time, patient name, modality, or source institution. DICOM Query and Retrieve. DICOM Receive. Temporary Local Image Storage (user selected aged deletion). Multi-frame support. (CT, US, MRI, etc.) Selected display options configurable by individual physician. Single or Quad (4-up) image display.*

## NuRouteR-S

**\$4,500.00**

This is a software solution only. The nuRouteR provides automatic image distribution. DICOM modalities forward images to this device and nuRouteR controls the DICOM send to the predetermined destinations. nuRouteR software also monitors and tracks errors.

*Includes 'nuRouteR' automatic image distribution routing software. Automatically distributes images to local area network locations (LAN). On-screen display provides important 'delivery' feedback. Automatically controls re-sends if connection is lost or broken. 'Rules' driven software allows user to set destination priorities. Ideal solution for remote sites. Automatically encrypts when using the internet for transmission. This is a software only product.*
